

## “Green Lantern Origin Story”

1. Hal Jordan was selected by ‘the ring’ to be the Green Lantern - why do you think he may have been chosen?
2. Hal is called an “expensive test pilot” - why do you think he was considered “expensive”?
3. An alien passes you a ring.....would you accept it? Really?!?!
4. The Ring can create anything that you can imagine - what would you create first to “try out” the ring?
5. Would you believe Hal Jordan was chosen because he was closer than another, possibly better candidate to be Green Lantern? How would you feel if you found out you were going to get something but it went to someone else because they were closer.....?
