

“Hulk Origin Story”

1. What do you think the “Gamma Bomb” might have been created to do?
2. How do you think someone may have been able to drive into a test area for a bomb?
3. Would you run into danger in order to try to save someone else?
4. Why do you think the Hulk creators decided to make the Hulk green? (hint - he wasn't always green and there have been other colours too....)
5. The Hulk is an “interesting superhero” as he is liked by some, feared by many and hated by some - what might be interesting about a superhero that can transform when angry or scared?
