

“Superman Origin Story”

1. Why might an alien race send a survivor to Earth?
2. What is a superpower that Superman has NOW but not in this ‘first comic’?:
3. If an ant can lift something 100 x its own weight - if you had “ant strength” and weighed 100 pounds, how much could you lift? What is something you think weighs that much?
4. Why do you think Superman used his powers for “good” instead of for his own gain? Imagine him in professional sports.....!
5. How do you think you would react if you found out an alien was already living on earth.....?
